## WARRANT FOR A TOWN MEETING.

MONDAY, January 20th, 1902.

To, WILLIAM B. FOSTER, Constable of Lexington, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Lexington, qualified by law to vote in town affairs, to assemble at the Town Hall, on Monday the 20th day of January, A. D., 1902, at 7.30 p. m., to act on the following Articles, viz:—

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the town desires to substitute stone and metal for wood (in whole or in part) in the exterior finish of the New High School Building, and if so to make an appropriation therefor and to provide for borrowing the money, or act in any manner relating thereto.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk on or before the time of said meeting.

Given under our hands, at Lexington, this ninth day of January, A. D., 1902.

EDWIN S. SPAULDING,  
G. W. SPAULDING,

*Selectmen of Lexington.*

## MEETING JAN. 20, 1902.

Meeting called to order by the Town Clerk at 7.40 o'clock p. m., who read the warrant and the return of the Constable thereon.

ART. 1. On motion of E. P. Merriam it was voted that we proceed to elect a Moderator by ballot, that the check list be used and that the polls be kept open five minutes. It was again voted that the time be extended three minutes. At the close of the polls at the time specified it was found 51 ballots had been cast all for Edward C. Stone, who was declared elected and was sworn by the Town Clerk.

ART. 2. Mr. R. P. Clapp said the meeting was called by citizens of the town who thought the change in the building should be made and not by the Committee, and gave the increased cost for substituting metal and stone for wood. Mr. B. F. Brown moved that the whole matter be indefinitely postponed. Mr. G. W. Sampson spoke against appropriating more money. Mr. A. E. Scott moved that the town appropriate \$16,500 for substituting metal and stone and spoke in favor of his motion. The Moderator ruled that Mr. Brown's motion took precedence of Mr. Scott's, and put the motion of Mr. Brown which he declared carried. The vote was doubted and the house was polled with the following result: 53 in favor and 23 against, and Mr. Brown's motion was declared carried.

Voted that the meeting be dissolved.

Meeting dissolved at 8.35 o'clock p. m.

ART. 11. To provide for the support of the highways the ensuing year, and grant money for the same.

ART. 12. To provide for the support of the street lights the ensuing year, and grant money for the same.

ART. 13. To provide for the support of the Fire Department the ensuing year, and grant money for the same.

ART. 14. To see if the town will make the appropriations for town expenses the ensuing year, as submitted by the Selectmen, or act in any manner relating thereto.

ART. 15. To see if the town will authorize their Treasurer, under the direction of the Selectmen, to borrow money for any necessary purpose, in anticipation of the collection of taxes the current year, the same to be repaid directly from the proceeds of said taxes, or act in any manner relating thereto.

ART. 16. To see what measures the town will adopt in relation to the collection of taxes the ensuing year, or act in any manner relating thereto.

ART. 17. To see if the Town will make an appropriation to construct sidewalks with concrete or other materials where the abutters will pay one-half the expense thereof.

ART. 18. To see if the Town will rescind the vote passed at a meeting held January 29, 1900, under article 2 of said meeting, and substitute therefor the following, or act in any manner relating thereto: "That at the Annual Town Meeting in March, 1903, the

Town shall elect one Selectman for the term of one year, and in March, 1904, shall elect two Selectmen for the term of one year, and in March, 1905, shall elect three Selectmen for the term of one year, and thereafter shall annually elect three Selectmen for the term of one year, in the manner in which the Selectmen have been elected prior to the election of March 5, 1900."

ART. 19. To see if the Town will construct a drain extending from Waltham street to the Hayes Fountain, and appropriate money for the same, or act in any manner relating thereto.

ART. 20. To see if the Town will vote to authorize the use of the Horses of the Fire Department on the watering carts and snow plows, or act in any manner relating thereto.

ART. 21. To see if the Town will vote to sell to Helen A. Crone and to Louise M. Reed, a strip of land 25 feet wide adjoining the land now owned by each of them on Lincoln street, or act in any manner relating thereto.

ART. 22. To see if the Town will vote to issue bonds to the amount of ten thousand dollars under the authority and provisions of Chapter one hundred and sixty (160) of the Acts of 1896, for the purpose of refunding an equal amount of bonds of the town denominated "Lexington Water Bonds," which became due November 1, 1902, or act in any manner relating thereto.

ART. 23. To see if the Town will accept a bequest made in the will of the late Joseph Van Ness, which reads as follows: "Fourth, I give, bequeath and devise to the Town of Lexington, in the Commonwealth of Massachusetts, five and one-half (5 1-2) acres of land, the same being the lot lying within the acute angle, at the junction of Watertown street and Pleasant street, to be held by the Town as a memorial park forever, to be known as Bowman Park."

ART. 24. To see if the Town will accept a strip of land abutting on Woburn street, the town line between Lexington and Woburn

and land of George A. Graham, the same to constitute a widening of Woburn street, or act in any manner relating thereto.

ART. 25. To see if the Town will vote to appropriate a sum of money toward the abolition of the grade crossing of the Boston and Maine Railroad at Woburn street, or to pass such votes as may be necessary to effect such abolition of said grade crossing, or act in any manner relating thereto.

ART. 26. To see if the Town will accept an extension of Merriam street, from its present terminus as accepted by the town across the estate of Francis B. Hayes to East street; also a street connecting with a street called Grant street, at present not accepted by the town, on a plan of lots of David W. Muzzey and continuing from said street on said plan from its present terminus on said plan to East street, or act in any manner relating thereto.

ART. 27. To see if the Town will vote to increase the number of its School Committee to six members, of whom at least two shall be women, all of whom except the secretary of the committee shall serve without pay, or act in any manner relating thereto.

ART. 28. To see if the Town will appropriate a sum of money sufficient to enable the Committee on additional Water Supply to complete their work.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk on or before the time of said meeting.

Given under our hands, at Lexington, this Thirteenth day of February, A. D., 1902.

EDWIN S. SPAULDING,  
G. W. SPAULDING,  
JOHN F. HUTCHINSON,

*Selectmen of Lexington.*

## ADJOURNED MEETING, MARCH 10, 1902.

The meeting was called to order by the Moderator at 7.30 o'clock P. M.

ARTICLE 18. On motion of George W. Sampson it was voted to take up Article 18, and Mr. Sampson offered the following motion :

*Voted,* That at the annual town meeting in March, 1903, the town shall elect one Selectman for the term of one year, and in March, 1904, shall elect two Selectmen for the term of one year, and in March, 1905, shall elect three Selectmen for the term of one year, and hereafter shall annually elect three Selectmen for the term of one year in the manner in which the Selectmen have been elected prior to the election of March 5, 1900, thereby rescinding the vote passed at a meeting held January 29, 1900, under article 2 of said meeting.

Mr. Sampson spoke in favor of the motion and Messrs. E. P. Merriam, R. P. Clapp and E. A. Bayley against it.

Mr. Sampson again made a motion which was carried, that the meeting vote upon the question by "yes" and "no" ballots, the check list being used. The polls were opened and at their close 382 ballots had been cast ; 172 being in favor and 210 against, and the motion was declared not carried.

The meeting then proceeded to take up all those articles in the warrant which relate to the appropriation of money, and under said articles George O. Whiting made the following motion, which was carried,

*Voted,* That except as hereinafter provided, no appropriations of money shall be made at this annual meeting, nor any final action taken involving or authorizing the expenditure of money by the town until after the matter of the proposed appropriation or expenditure shall have been considered by the finance committee herein provided for,

unless the appropriation or expenditure be made or authorized by the unanimous vote ; that the Selectmen, the respective chairman of School Committee, the Board of Fire Engineers and Water Board, together with eleven other citizens to be appointed by the Moderator, constitute a finance committee which shall consider a report upon such of the articles of the warrant following Article 3, and such reports of town officers and committees as shall not have been disposed of under other provisions of this vote, that said committee give one or more public hearings ; and that it submit a report, in print, for action by the town at an adjourned meeting. This vote shall not prevent the appropriation at any time of money for payment of town indebtedness due or to fall due during the current year, nor the taking any action under articles 5, 6, 15, 20, 21, 22, 23, 24, 26 and 27 of the warrant. Under the above vote the Moderator appointed the following citizens :

George O. Whiting, *chairman* ; Daniel G. Tyler, Nathaniel H. Merriam, Timothy O'Connor, Arthur F. Hutchinson, Alonzo E. Locke, Cornelius O'Leary, H. A. C. Woodward, Frank C. Childs Jas. Alex. Wilson, Edwin C. Stevens.

Mr. Whiting also made the following motion :

*Voted,* That when this meeting adjourns the adjournment shall be to Monday evening, April 7, 1902, at 7.45 o'clock P. M.

Mr. Cornelius Wellington moved to amend by making the hour 7.30. Mr. Whitney accepted the amendment, and the motion of Mr. Whiting, as amended by Mr. Wellington, was carried.

On motion of Robert P. Clapp, it was

*Voted,* That Article 4 be in order at all times when no other business is before the meeting ; under this vote Rev. C. A. Staples submitted a report, orally, of the trustees of the Cary Library, and offered the following resolutions or votes.

*Resolved*, That the trustees of Cary Library be requested to open the library at one o'clock in the afternoon on week days instead of two o'clock, and to open it on Sunday afternoon from half-past two to half-past five o'clock.

*Resolved*, That the sum of one hundred and twenty-five dollars be appropriated and assessed to defray the additional expense of the same.

Mr. R. P. Clapp offered the following amendment which was accepted by Mr. Staples, that the matter of appropriating money to defray the additional expense of keeping Cary Library open be referred to the finance committee and the motion of Mr. Staples, as amended by Mr. Clapp, was carried.

ART. 20. On motion of Mr. E. A. Bayley it was

*Voted*, That the town recommend the use of the horses of the Fire Department for hauling the street sprinklers and snow plows within suitable limits, and refers the whole matter to the Board of Selectmen with this recommendation.

Under article 4 Mr. A. E. Scott presented a report of progress of the Committee on additional Water Supply. (See report of committee, page 502). On motion of Mr. E. P. Merriam it was

*Voted*, That the report be accepted and that the portion of the report asking for an appropriation be referred to the finance committee.

ART. 15. On motion of Mr. J. F. Hutchinson it was

*Voted*, That for the purpose of procuring temporary loans to and for the use of the town of Lexington in anticipation of the taxes of the present municipal year, the Town Treasurer is hereby authorized to borrow from time to time, with the approval of the Board of Selectmen, and to execute and deliver the note or notes of the Town therefor, payable within one year from the time the loan is

made, with interest thereon at a rate not exceeding 5 per cent per annum. All debts incurred under this vote shall be paid from the taxes of the present municipal year.

ART. 21. On motion of James E. Crane, it was voted that the town sell to Helen A. Crone, and to Louise M. Reed the land described in Article 21, on such terms and at such price as the Selectmen may fix.

Under Article 27, Mr. E. A. Bayley offered the following motion :

*Voted*, That the membership of the School committee be increased to six, in the manner provided by law, and to this end the town shall at its annual town meeting for the election of officers for the year 1903, elect four members of the School Committee, two of whom shall be elected for the term of three years, one for the term of two years, and one for the term of one year, and thereafter the town shall annually elect two members each for the term of three years. Mr. C. S. Ryan moved that the matter be indefinitely postponed for the reason that the revised laws Chap. 11, Section 334 did not permit action being taken at an annual meeting. Mr. Bayley moved to amend Mr. Ryan's amendment that the matter be postponed until the adjourned meeting. Mr. Ryan accepted the amendment, and the motion as amended was carried.

Under Article 17, Mr. E. A. Bayley presented the petition of Cornelius O'Leary, and sixty-nine others, asking the Selectmen to build a gravel sidewalk from the junction of Mass. ave. and Woburn st., to a point three hundred feet east of Utica street. And it was voted to refer the petition to the board of Selectmen, with the recommendation of the voters in town meeting assembled.

ACT. 6. The Moderator called up this article, and read the list of jurors as prepared and posted by the Selectmen, the names of William W. Reed and George D. Harrington, being stricken from the

list, at their own request, and on motion of Mr. Geo. D. Harrington it was

*Voted,* That the list be accepted.

Under Article 5, the following persons were elected field drivers : Charles E. Wheeler, Albem S. Chetfield and Clarence H. Cutler.

*Voted,* To adjourn at 10.15. Adjourned to April 7th, 1902.

#### ADJOURNED MEETING APRIL 7th.

Meeting called to order by Moderator at 7.30 o'clock.

ART. 27. Mr. E. A. Bayley moved to take up Article 27, which had been postponed to this meeting, and spoke in favor of the motion. Mr. C. S. Ryan spoke against the motion, and moved indefinite postponement. Remarks were made upon the legality of the proposed action by Messrs. Sampson and Clapp. Mr. Bayley asked for the ruling of the chair and the chair held that action could be taken at this meeting. The motion of Mr. Ryan was then put and lost, and the original motion of Mr. Bayley was then put and carried.

ART. 23. Rev. C. A. Staples made the following motion which was carried.

*Resolved,* That the town gratefully accept the bequest contained in the will of the late Joseph Van Ness, of a certain piece of land at the junction of Pleasant and Watertown streets for public use, as a park or pleasure ground, and that it be held perpetually for that object, the same to be known as Bowman Park. Mr. Staples also offered the following motion :

*Resolved,* That the thanks of the citizens of Lexington in town meeting assembled, April 4th, 1902, be conveyed to Mrs. Sarah

Bowman Van Ness, representing the descendants of Samuel Bowman, for the artistic and beautiful portrait of their ancestor, which they have presented to the town, the place of his birth. The same is gratefully accepted, and ordered to be hung in the Cary Library.

The chair was of the opinion that this motion could not be acted upon, there being no article in the warrant calling for such action, but was willing to put the motion, the motion was put and unanimously carried. Mr. Cornelius Wellington moved that a committee be appointed to have charge of Bowman Park. Mr. Clapp said the motion was out of order, and the chair so ruled.

ART. 26. Mr. G. W. Taylor in behalf of the Selectmen offered the following recommendation. The Selectmen recommend the acceptance of an extension of Merriam street from its present terminus as accepted by the town, across the estate of Francis B. Hayes to Adams street, when laid out to the satisfaction of the Selectmen, and satisfactory deed made to the town. Also a street connecting with the street called Grant street, at present not accepted by the town, on a plan of lots of David W. Muzzey, and continuing from said street on said plan from its present terminus on said plan to East street, when the same is laid out to the satisfaction of the Selectmen, and properly deeded. On motion of Mr. R. P. Clapp it was

*Voted,* That the said street be accepted, in accordance with the recommendations of the Selectmen.

ART. 22. Mr. J. F. Hutchinson made the following motion which was carried by unanimous vote. That the town issue ten bonds of one thousand dollars each dated Nov. 1, 1902, payable in twenty years from date, and bearing interest at the rate of four per cent per annum principal and interest to be paid in gold coin of the United States of the present standard of weight and finances to refund an equal amount of the bonds of the town denominated Lexington Water Bonds which become due November 1, 1902, under the provisions of Chapter 160 of the Acts of 1898, and that

said bonds be sold at private sale under the direction of the Selectmen upon the best terms they can obtain.

ART. 4. Under this article Mr. Geo. W. Taylor made the following report in behalf of the Selectmen. The Selectmen recommend the acceptance of an extension of Pelham Road from a point on Louise S. Parson's frontage to which it is now accepted to the farthest extent of Theresa H. Garrison's land, being about three hundred feet. The Selectmen also recommend the acceptance of a road running from Pelham Road to Warren Street, both streets to be accepted when satisfactory deed is made to the town. On motion it was

*Voted,* That the streets be accepted in accordance with the recommendations of the Selectmen.

Mr. Geo. O. Whiting in behalf of the committee on finance presented the printed report of that committee. Under this report the meeting proceeded to take up the various articles.

ART. 4. On motion of Mr. Geo. H. Cutter it was

*Voted,* That the town appropriate two hundred dollars, \$200, for the observance of Memorial Day, said amount to be paid to the Quarter Master of Geo. G. Meade, Post 119, G. A. R.

ART. 8. Mr. Geo. W. Sampson offered the following motion.

WHEREAS, a bequest to the town of Lexington is reported to have been made by the late Chandler R. Richardson of a certain portion of the property owned by him to be devoted to the use of a manual training school for the town, and

WHEREAS, no practical result has shown itself in that direction, it is hereby

*Voted,* That a committee of three be appointed by the chair to

investigate the matter fully and to report on the subject either at an adjournment of this meeting or at the next town meeting.

Mr. Sampson made some remarks on the subject.

Mr. Geo. W. Taylor said that the Selectmen had gone into the matter quite fully with Mr. Scott, the trustee of the Richardson will.

The chair was of the opinion that the meeting ought first to pass upon the question of the appropriation as reported by the committee. Remarks were made on the question by Messrs. B. F. Brown, F. S. Piper and E. P. Bliss. It was then upon motion declared by the chair,

*Voted,* That the sum of twenty-two thousand seven hundred and sixty-one and 72-100 dollars (\$22,761.72) be appropriated and assessed for the support of Schools for the ensuing year.

*Voted,* To adjourn.

At 10 o'clock adjourned to Monday, April 14th, at 7.30 p. m.

---

#### ADJOURNED MEETING APRIL 14, 1902.

Meeting called to order by the Moderator at 7.30 p. m.

The question came on the motion of Mr. G. W. Sampson offered at the adjourned meeting, April 7th, Mr. E. P. Merriam moved that the whole question be referred to the Selectmen. Remarks were made in regard to the subject by Messrs. Scott, Sampson, Bayley and others. Mr. Parker moved that the whole matter be indefinitely postponed. Mr. Merriam withdrew his motion and Mr. Parker's motion was put and declared carried, seven voters having

doubted the vote the house was polled with the following result : 63 in favor and 8 against, and Mr. Parker's motion was carried.

ART. 9. *Voted*, That the sum of \$1500.00 be appropriated and assessed for the support of poor at the Poor Farm the ensuing year. On motion of Mr. B. F. Brown it was

*Voted*, That the Selectmen be requested to report at the next meeting as to the propriety of selling the Town Farm.

ART. 10. *Voted*, That the sum of \$5507.18 be appropriated and assessed for the support of the outside poor the ensuing year.

ART. 11. *Voted*, That the sum of \$18,000.00 be appropriated for the support of the Highways the ensuing year. \$11,500 to be assessed and the balance \$6500 to be taken from the Bank and Corporation account.

Under ART. 11, Mr. P. J. Corbett made a motion that the employes of the Highway Department be paid at the rate of two dollars a day for a nine hours day, but upon motion of Mr. C. B. Davis it was

*Voted*, That the matter be referred to the Surveyors of Highways.

ART. 12. *Voted* that the sum of \$6412.10 be appropriated and assessed for the support of the street lights the ensuing year. Under this article Mr. George O. Whiting offered the following motion, which was carried : That a committee of five be appointed by the Moderator to investigate the matter of street lighting, and that the Selectmen be requested to make no contract for the balance of the year, pending a report from such committee. Under this vote the Moderator appointed the following committee : Daniel G. Tyler (chairman), Charles B. Davis, Nathaniel H. Merriam, Frank H. Locke and Charles Garrison.

ART. 13. Mr. George W. Taylor offered the following motion : That the sum of \$4000 be appropriated and assessed for the payment of the Fire Department expenses for the current year, and that the board of three engineers shall receive not exceeding one hundred and twenty-five dollars (\$125.00) for their services, and that other members of the Fire Department shall receive not exceeding twenty-five dollars (\$25.00) per annum. Mr. Sampson suggested that the question be divided, and the motion was first put on that part of the motion providing for the payment of the members at the rate of \$25.00 per annum.

This motion was declared lost ; seven voters doubted the vote, and the house was polled, with the result that the motion was lost by a vote of 91 to 59. Mr. Sampson then made a motion which was carried that the other members of the Fire Department shall receive not exceeding \$37.50 per annum.

Mr. Taylor moved an amendment that the board of engineers shall receive not exceeding \$225.00 for their services. This motion was put and declared lost ; the original motion, as amended, was carried, as follows : That the sum of \$4366.78 be appropriated and assessed for the payment of the Fire Department expenses for the current year, and that the board of engineers shall receive not exceeding \$125.00 for their services, and that the firemen be paid semi-annually—June 30 and Dec. 31.

*Voted*, That the meeting adjourn to April 28, at 7.30 P. M.

Meeting adjourned at 10.20 P. M.

WHEREAS, the Lexington and Boston Street Railway Company has petitioned the Selectmen of Lexington for a double track location in Bedford road and for the right to operate said railway by the so-called overhead trolley system, and

WHEREAS, said Board of Selectmen have given written notice to all parties interested of the time and place at which they would consider said petition at least fourteen days before the meeting of said board by publication in a newspaper published in said Lexington, and

WHEREAS, a hearing has been had and said Board of Selectmen are of the opinion that public convenience and necessity requires that said location named in said petition should be granted.

ORDERED, That the prayer of said petition be and the same is hereby granted as herein described and set forth, and that a location of the tracks of the said Lexington and Boston Street Railway Company be granted and located as hereinafter set forth and authority is hereby given to said railway company to extend its tracks in said Town of Lexington as follows:

Beginning at the boundary line between the Town of Lexington and the Town of Bedford on Bedford road, thence running in a general southwesterly direction partly in said Bedford road and partly upon land now of said company, which is to be conveyed to the inhabitants of said town as hereinafter set forth, for a distance of about forty-three hundred (4300) feet. Reference is made to the plan submitted with said petition and to be filed with the Town Clerk of Lexington for a particular description of this location, the second track being shown in red upon said plan with the right to use electricity as a

motive power, and subject to the following restrictions, which said Board of Selectmen deem the interests of the public require in addition to those applying to all street railways under the general provisions of law.

Said Street Railway Company shall at its own expense convey or cause to be conveyed to the inhabitants of the Town of Lexington a good and sufficient release conveying a good title free from all incumbrances, all land necessary where this location is granted necessary for the widening of said Bedford street to a width of not less than eighteen feet six inches from the easterly edge of the easterly rail of the present track as now located in said street, said land to be conveyed aforesaid before any work is commenced for widening said street or constructing said railway.

Said Bedford street shall at the expense of said company be widened as aforesaid, and constructed satisfactory to the Selectmen including sidewalk of gravel, gutter, culverts and catch basins.

Said company shall construct a suitable fence on the easterly boundary line of this location as soon as said road is constructed.

No poles shall be erected where this location is granted.

All snow shall be taken care of by said company and all material used in the construction of said railway shall be satisfactory to the Selectmen, and all work on the same shall be to their satisfaction.

This location is granted only upon the express condition that all land necessary for the widening of said Bedford road as above set forth is conveyed to said Town of Lexington, and that said Bedford road shall be widened as aforesaid at the expense of said railway company, and shall be valid only in said road widened and constructed as herein provided, and no tracks shall be laid in said road until said land is conveyed as aforesaid and said road is widened

and constructed as aforesaid. Section 23 in franchise granted February 4, 1899, shall also be considered part of this.

#### WARRANT FOR A TOWN MEETING.

MONDAY, December 1st, 1902.

To WILLIAM B. FOSTER, Constable of Lexington, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Lexington, qualified by law to vote in town affairs, to assemble at the Town Hall, on Monday, the 1st day of December, A. D., 1902, at 7.30 o'clock, p. m., to act on the following Articles, viz:—

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will vote to accept the provisions of Chapter 48, Section 103 of the revised laws, relating to the establishment of a building line, or act in any manner relating thereto.

ART. 3. To see if the Town will vote to enter the Metropolitan system of water supply, so called, or act in any manner relating thereto.

ART. 4. To see if the Town will vote to take from time to time, by purchase or otherwise, any land within the territory bounded and

described under the provisions of Chapter 163 of the Acts of the year 1902, and to take such other measures as may be necessary to accept the provisions of said Act, the same being an Act to authorize the Town of Lexington to obtain an additional water supply, or act in any manner relating thereto.

ART. 5. To see if the Town will vote to authorize the School Committee to sell, remove or otherwise dispose of the old High School Building, or to take any action in relation thereto.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, on or before the time of said meeting.

Given under our hands, at Lexington, this 22nd day of November, A. D., 1902.

#### MEETING DECEMBER 1, 1902.

Meeting called to order at 7.30 o'clock by the Town Clerk who read the warrant and the return of the Constable thereon.

ART. 1. On motion of A. C. Stone it was

*Voted,* That we proceed to elect a Moderator by ballot, that the check list be used and that the polls be kept open five minutes, which time was extended five minutes. At the close of the polls it was found 47 ballots had been cast, all for Edward C. Stone, and he was declared elected and was sworn by the Town Clerk.

ART. 2. On motion of E. P. Bliss it was

*Voted,* That the town accept Chapter 48, Section 103 of the Revised laws relating to the establishment of a building line.

ART. 3. On motion of J. P. Munroe it was

*Voted,* That the town enter the Metropolitan system of water supply, that the committee of August 25, 1902 be authorized together with the Selectmen to make and execute the necessary contracts on the part of the town to carry this into effect including purchase and laying of necessary pipe. The vote was doubted and the house was polled with the following result, 83 in favor and 28 opposed.

ART. 5. Mr. J. P. Prince moved, "That the disposition to be made of the old High School building be referred to the Selectmen with instructions to consider the retaining it for school or other public purposes."

Mr. R. P. Clapp moved the following amendment, "But with power to make disposition as they shall deem for the best interest of the town."

Mr. C. F. Carter moved as an amendment, "That the School Committee be added."

Mr. Prince's motion as amended by Messrs. Clapp and Carter was then put and carried.

Mr. E. P. Bliss offered the following resolution which was adopted:

"That it is the sense of the meeting that the Selectmen take advantage of Chapter 48, Section 103, of the Revised laws by establishing such a building line as they think best."

Meeting dissolved at 10.20 o'clock.

## REPORT OF THE BOARD OF SELECTMEN.

LEXINGTON, MASS., January 1, 1903.

*To the Citizens of Lexington:*

The Board of Selectmen submit the following report for the year ending December 31, 1902.

In accordance with a vote of the Town, your Board has considered the advisability of selling the Town Farm, and cannot recommend such action, for the reason that while the amount expended for each inmate seems large, it must be remembered that the buildings are chiefly used by the Highway Department for its horses, wagons and road implements, and in no other way could this property be cared for as economically.

The Lexington & Boston Street Railway Co. having applied for a location for a double track from the Bedford line to a point near the Morton Reed Estate, on Bedford street, a hearing was held on August 22, and as there was no opposition, the Board granted the petition of the Company on condition that they purchase and deed to the Town the necessary land, and build proper culverts and catch basins without expense to the Town. No other franchises have been granted.

By order of the County Commissioners, Massachusetts avenue from Arlington line to Oak street has been widened to 70 feet. The Lexington & Boston Street Railway assumed all land damages, graded the street, and built catch basins and culverts, but according

to the franchise, as granted by a former Board of Selectmen, the macadamizing was done by the Town. Further account of this work may be found in the report of the Highway Surveyors.

While the Commonwealth has been quite liberal in its appropriations for the construction of State highways in Lexington, your Board has secured from the Commissioners an agreement to build a State road from the Morton Reed Estate to the Boston & Maine Railroad track at North Lexington, on condition that the Town continue the work to a point near the property of John Ryan, thus giving a macadamized road from Lexington to Bedford. This work will probably be completed during the coming year.

During the past year the water supply has been so inadequate that it became imperative to secure a greatly increased and *permanent* supply which the Metropolitan System will afford.

The Town buildings are in excellent condition, with the exception of Town Hall, upon which but little money has been spent since its erection in 1871. While we are loath to add anything to the already heavy burden of the tax payers, we feel that there is no economy in allowing buildings to depreciate through neglect, and we, therefore, recommend an appropriation of \$2000 to carry out greatly needed repairs.

There have been no changes in the personnel of the Police Department, which maintains its efficiency under Chief Charles H. Franks.

Mr. George H. Thurston, who for so many years faithfully served the Town as Janitor of Town Hall, resigned this important position because of ill health, and in his stead, we were fortunate to obtain the services of an old soldier, Mr. Geo. B. Dennett, who is proving himself the right man in the right place. The Board regrets to chronicle the death of Mr. Geo. D. Estabrook, janitor of Stone Building. This vacancy is being filled by Mr. James H. Phillips.

The Selectmen accepted with much regret the resignation of Mr. Chas. H. Wiswell from the School Board, and on May 12, the joint Boards of Selectmen and School Committee elected Mr. Francis J. Garrison to fill the vacancy.

In accordance with a vote passed at a Town Meeting held December 1, the Selectmen investigated the advisability of establishing a building line through the centre of Lexington. Mr. William Hunt was interviewed in order to ascertain if an arrangement could be made with him to suspend building operations on his new block and to learn, approximately, what damages the Town would have to pay. It was quite evident that the damages would be exceedingly heavy, owing to the fact that building contracts had already been let, work commenced, and the premises leased in advance. In no event, could the line be legally established within three weeks after the vote was passed, by which time, the work on the building would have continued, as Mr. Hunt could not see his way clear to suspend operations. The damage to adjacent estates was also considerable. Therefore, it was the unanimous decision of the Board not to involve the Town in litigation and heavy expense which Lexington at present is in no position to incur.

In conclusion, we ask the co-operation of the citizens in all matters pertaining to the welfare of Lexington, and to that end we invite criticism and suggestion, as the Board desires at all times to carry out the wishes of the people.

We recommend the following appropriations for the next financial year, in addition to the balance now standing to the credit of the several accounts as per Auditors report.

Respectfully submitted,

EDWIN S. SPAULDING,  
JOHN F. HUTCHINSON,  
GEO. W. TAYLOR.

## HIGHWAY SURVEYORS' REPORT.

LEXINGTON, MASS., January 1, 1903.

*To the Citizens of Lexington :*

The Surveyors of Highways submit the following report for the year ending December 31, 1902.

The Highway Department, under the able supervision of Mr. R. H. White has done good work during the past year, and more than the usual amount of repairs were made on the gravel roads. Much work has been done on Lincoln, Lowell and Woburn streets, and general repairs made throughout the town. Adams and Lowell streets are still in poor condition, however, and much work must still be done to make these streets fairly passable.

The chief work of the year has been to macadamize Massachusetts avenue in East Lexington from Arlington line to Oak street. To do this nearly 4000 tons of crushed stone were necessary, an amount quite beyond the capacity of our own crusher, and even if this quantity of stone had been available it would not have been economical to haul it such a distance from the crusher.

Therefore we were fortunate in being able to make a contract with W. H. Mague to furnish stone and place it where needed at \$1.10 a ton, being at least 40c a ton less than we could obtain the stone from any other source. The construction of this street, which is a fine specimen of macadam, was done under the personal supervision and direction of Mr. E. S. Spaulding, chairman of the Board of Selectmen. One hundred and twenty-five rock maple trees have

been planted on the sidewalk line and in a few years will add greatly to the appearance of the avenue.

Another expensive undertaking was the macadamizing of Massachusetts avenue from Clark street to the foot of Concord Hill, which gives a macadam road through the centre of the Town to Arlington. Waltham and Merriam streets have been repaired and altogether we think that the streets of Lexington compare favorably with those of much larger towns.

During the past year more attention has been paid to street cleaning, and the results seem to justify the expenditure in this direction.

The following is a schedule of property belonging to the Highway Department at the Poor Farm and elsewhere :

Blankets,	\$40.00
Carts—3 double,	325.00
Carts—2 single,	90.00

- Dec. 23, box 82, dwelling and barn, owned by George H. Flint, Concord avenue. Loss \$1200. Cause, probably incendiary.

On May 1st the engineers proceeded to reorganize the department, and changes were made in all companies. On account of illness, Wm. J. Harrington, the permanent man at Adams Engine House, was granted three months' leave of absence, with half pay, and John H. Wright acted as his substitute. Mr. Wright has since been appointed permanent man at East Lexington, and has fulfilled his duties most efficiently. The same can be said of Philip J. Nelles, who holds a similar position at the Centre Engine House. Mr. Nelles was appointed to take the place made vacant by the resignation of James E. Shelvey, and has secured a state license to operate and care for the steam fire engine.

The engine houses have undergone extensive repairs, most of which have been made by the firemen themselves who have given time and materials for the purpose. The rooms have been thoroughly cleaned, whitewashed and painted. Through subscriptions raised by members of the department and their friends, two billiard tables, one for each engine house, have been purchased, and under certain restrictions, are enjoyed by the firemen. The houses are open for inspection at any time and citizens are cordially invited to visit them frequently.

The department has four engine men licensed by the State to operate the Silsbee engine.

The Lexington Firemen's Benefit association was formed in July. The object of this organization is to give financial aid to any member who is injured while on duty at a fire. The engineers, in behalf of the department, take this opportunity to acknowledge Mr. Geo. O. Whiting's generous gift of one hundred dollars to the association.

The fire alarm system needs extensive repairs, and at present costs \$200 annually for maintenance, which expense would be materially reduced if covered wires were used, and as far as possible placed under ground in the conduit already provided on Massachusetts avenue from Arlington line to Hancock street. At least ten miles

should be replaced by covered wire, and an appropriation of \$600 would be necessary for the purpose.

In accordance with the vote passed by the town, the department horses have been used on the watering carts, and the permanent men have acted as drivers. No inconvenience has been suffered from this arrangement, and the exercise has improved the condition of the horses. \$308.25 has been thus earned. This seems a small sum, but is accounted for by the fact that owing to the scarcity of water, the commissioners were obliged to forbid the use of water on the streets during the greater part of the summer. In August the watering carts were in use only two hours. With an abundant supply from the Metropolitan system a much better showing will be made during the coming year.

The attention of the town is called to the fact that many of the water mains on the hills and side streets are too small to furnish protection in case of fire, noticeable those in the Mt. Vernon district where many valuable houses have recently been built. The same conditions exist on Oakland, Stetson and Hancock streets. There is no direct water service on Clark street from Massachusetts avenue, the Hancock school being protected only by a four inch main laid through Muzzey and Raymond streets, through Clark to Forest, and we suggest the advisability of laying an eight inch main from Massachusetts avenue through Clark street to Forest and Parker streets. The Sherman and Grant streets district is likewise unprotected, being supplied with a four inch main from Oakland street.

The amount appropriated for expenses of the department during 1902 was \$4300, but the present Board of Engineers, upon taking office May 1st found that there had already been expended \$2,757.08, leaving a balance of \$1,642.92, to which may be added \$308.25, the earnings of the department by street watering, making a total of \$1,951.17, a sum obviously insufficient to pay current expenses for eight months, hence, the deficit which is shown in the Treasurer's account. All bills including firemen's salaries have been

paid up to December 31, 1902. We recommend the following appropriation which we feel sure will be sufficient to carry the department a full year :

For overdraft,	\$1,529.06
For current expenses during 1903,	4,300.00
For replacing ten miles fire alarm wire,	600.00

Any person giving an alarm should remain at the box until the arrival of the apparatus in order to direct the firemen.

In conclusion, the Engineers wish to thank the firemen for their hearty support and co-operation, and to express appreciation of all assistance that has been rendered the department by citizens of the town.

Respectfully submitted,

JAMES H. PHILLIPS,  
WILLARD H. GREENE,  
GEO. W. TAYLOR,

## REPORT OF OVERSEERS OF THE POOR.

*To the Citizens of Lexington :*

The report for the year 1902 does not differ greatly from that of last year.

The conditions existing among the poor were similar ; the same old problems were to be met in the distributions of relief.

Our endeavor was to be just as well as economical ; studying not only the interest of the town, but the welfare of the recipients.

Everything was found in good condition at the almshouse, and the town is certainly fortunate in having Mr. and Mrs. R. H. White as superintendent and matron.

J. S. CASSEDY,  
*Inspector of Plumbing.*

Regulations of the Board of Health of the Town of Lexington, Mass., in accordance with the provisions of the Public Statutes 80, Sections 18 and 19.

1. The attention of physicians is respectfully called to the necessity of promptly reporting all contagious diseases, according to law, occurring in their practice in Lexington.

2. The Board of Health have full control of all fumigations of contagious diseases, but when deemed advisable by them the board may delegate the attending physician to fumigate a house, room or rooms, after a proper limit of time has elapsed, but the physician shall, in all such cases, report to the board the date of such fumigation immediately. The expense of such fumigation shall be borne by the occupant, in accordance with Public Statutes 80, Section 83.

3. Cesspools will be cleaned by the odorless cart upon application to the Board of Health or to the driver of the odorless cart, either verbally or in writing, and shall be cleaned in the same order of precedence as regards time in which the request shall be made. The price for cleaning a vault or cesspool will be two (2) dollars per load, or any part thereof, and shall be paid to the driver of the odorless cart within thirty (30) days from the time of removal of the contents of said vault or cesspool or any part thereof.

4. The Board of Health may at any time cause each householder to suitably arch and brick the cesspool or cesspools on the

premises, and provide an iron cover with suitable ventilating equipments, subject to the inspection and approval of the Board of Health; or may at any time order any householder to dig a cesspool on the premises owned by said householder, subject to the approval and inspection of the Board of Health.

5. The teaming of swill, offal or other offensive matter over the roads of the town, except in tight or odorless carts, is hereby prohibited.

6. These regulations are made as provided by law, but the Board of Health may alter, amend, change, repeal or add to them at their discretion, and nothing herein shall be construed to prevent the making or enforcing of any other regulations as provided by statute or by any act of this board.

#### SPECIAL REGULATIONS.

Until otherwise ordered, all persons are prohibited from driving or causing to be driven, any diseased cattle within the limits or upon any of the streets of the town of Lexington from other towns or cities under penalty of arrest.

The Board of Health hereby adjudges that the exercise of the trade or employment of keeping swine within the limits of the town is a nuisance and hurtful to the inhabitants thereof, and dangerous to the public health. No person, firm or corporation shall engage in, or exercise within the limits of the town of Lexington, the trade or employment of keeping swine without having first obtained a permit thereof in writing from the Board of Health, and such permit may be revoked at any time by said Board.

The Board of Health hereby adjudges that the exercise of the trade or employment of slaughtering cattle, swine, sheep or other animals, or conducting a melting or rendering establishment is a nuisance and hurtful to the inhabitants of the town and dangerous to the public health. No person, firm or corporation shall engage in,

or exercise within the limits of the town of Lexington, the trade or employment of slaughtering calves, swine, sheep or other animals, or of conducting a melting or rendering establishment; but this regulation shall not apply to any person, firm or corporation who may be engaged in such business or employment within the limits of the town of Lexington, at the date of the adoption hereof.

Respectfully submitted,

ALBERT B. SMITH,

## THE FORCE AND GOOD WORK DONE.

In making my report I wish to call the attention of the citizens to the good work done by the officers during the year; their department has been excellent, and no other police department in any city or town has done their work better than ours. Two burglars visited the town and did work during the year. One of them through the efforts of Officer W. B. Foster was arrested and convicted and sentenced to five years in the State's Prison; the other was caught on the street with the stolen property on him by Officer P. J. Maguire and sent to the House of Correction for four years. James Irwin is a good officer and does his work well, and the special officers who assisted us during the the summer months did good work and I wish to thank them for it. I would recommend that one of the special officers be put on regular duty the coming summer. As it is impossible for me to be on the street day and night and attend

to all calls at my house where the Chief of Police telephone is and my office. Three telephone calls from out of town and two rings at the door bell are the Police calls in the last hour as I sit at my desk writing this report. I will give all my time to the business, but I do not think I should be expected to furnish an assistant to do office work when doing duty on the street or in court.

#### ILLEGAL SALE OF INTOXICATING LIQUORS.

With the assistance of the Law Enforcement Association a close watch has been kept on all places suspected of illegally selling intoxicating liquors. Two persons have paid fines in District court, and one whose case was pending in Superior court at the commencement of the year plead guilty and paid his fine, and there is not a town of its size in the state today so free from the illegal sale of intoxicating liquors as Lexington.

#### CONCLUSION.

To the honorable Board of Selectmen I desire to return my sincere thanks for the courteous manner in which I have been treated by them during the year, and also to His Honor, John S. Keyes, Judge of the District court, central Middlesex, for the valuable assistance and courteous treatment in discharge of my duties in court, and to all members of the police department and citizens of the town.

Respectfully submitted,

CHAS. H. FRANKS,

*Chief of Police.*

## REPORT OF THE CEMETERY COMMITTEE.

Your committee in submitting their report, again wish to call the attention of the town to the urgent necessity for the purchase of land suitable for a new cemetery; immediate action should be taken, as it will require time to lay out and develop the same. We ask for \$200 for the general care of the cemetery for the ensuing year.

Respectfully submitted,

## REPORT OF CATTLE INSPECTOR.

LEXINGTON, Dec. 29th, 1902.

I offer the following report as Inspector of Animals for Lexington :

I have examined 61 herds of cattle and find 1249 horned cattle, 281 swine, and one flock of 16 sheep, and find them in good condition, none with a contagious disease, as owners look closely after their cattle and dispose of any suspicious ones, thereby saving trouble to themselves and expense to the State. Some barns I find might be kept cleaner, but as a general thing there has been a decided improvement in the condition of the stables where milch cows are kept. I have heard of no case of glanders this year, and of but one suspicious case of the much dreaded foot and mouth disease in this town, and that one was released after being examined by the State Commissioner.

## REPORT OF THE SCHOOL COMMITTEE

FOR THE YEAR ENDING DECEMBER 31, 1902.

### *To the Citizens of the Town of Lexington :*

The past year has been unusually eventful in the schools of Lexington. A new High School building has been built, furnished and dedicated ; the Superintendent of Schools, who had held the position for the past five years, resigned, and his successor has been installed ; a complete new system of sanitation has been constructed in Hancock school ; and several changes have been made in the corps of teachers.

While our schools are not as efficient as could be desired, they are in better condition than most suburban schools. During the past year several pupils have entered our schools from neighboring cities and towns and with scarcely an exception our schools have been found to be in advance of those they had left.

At the close of the school year last June, written tests were given to all pupils in the ninth grade by the committee, that they might satisfy themselves about the standing and thoroughness of the class which was then about to graduate from our grammar schools. The questions for this test were prepared by the committee and approved by competent judges. The results were satisfactory and showed a high degree of efficiency.

The teachers throughout are progressive and faithful in their work. In a few instances their services would be more valuable if they

would take a broader interest in human affairs and advance farther beyond the required work of the school room. James Martineau has said : "It is a common mistake to suppose that those who know little suffice to inform those who know less."

Judgment and wisdom are as necessary in the lowest grades of school work as in the highest. A broad reading of history, philosophy and psychology, as well as cultivation in the arts, is strongly commended for all teachers. On the other hand we have a large number of teachers who are exceptionally well fitted for their work. It is but just to remark that we are indebted to the principal of the Hancock School for high ideals gently given and firmly maintained, to the lasting welfare of hundreds of our pupils.

Though some of our salaries may be inadequate, we can at least show our appreciation of what our teachers are doing for our children. Too often the expressions of gratitude are feeble in comparison with our liberal criticisms.

After the new High School was completed, the ninth, eighth and two primary grades were transferred to that building.

It was believed that this would relieve the crowded condition of Hancock School for several years, but such is not the case. At the opening of school in September there were 555 pupils in Hancock School. There were 161 transferred, leaving an excess of 394, as Hancock School was never intended to accommodate over 360 at the most.

It was necessary to continue school in one room on the third floor, which it had been hoped could be avoided. The ninth and eighth grades are well accommodated in the new high school building, but primary grades seem out of place there, besides occupying rooms which will soon be required for the high school classes.

Increased primary accommodations must be secured without delay, or our schools will soon be crowded worse than ever. The rapid increase in school population is not peculiar to Lexington, but common throughout New England, and it is hard to realize the need of

constantly increasing school accommodations. Previous to completion of the new high school building every room in Hancock School was in use, including the large hall. Beyond this, too many pupils were crowded into each room, varying from thirty-four in grade VIII to seventy in grade I. While the number of pupils per teacher was much in excess of any reasonable limit, it could not be reduced for want of room. This has been now partly relieved, but the number of pupils per teacher is still too large for the best results.

Woburn street is the vicinity furnishing the largest proportion of primary pupils at present.

The School Committee recommend that a committee be appointed at the coming annual town meeting to consider the matter of locating and constructing a primary school building.

Attention cannot be given too promptly to this matter and an expensive structure is unnecessary.

About fifteen pupils from the Lexington Branch of the Boston Female Asylum entered Hancock School this fall, for whom the institution pays annually \$25.00 tuition per pupil.

Somewhat extensive repairs have been made to the roof and gutters of Hancock School, and the building is in good condition throughout. It has never received better care than from the present janitor.

A few important improvements have been made in the Adams School and more are urgently needed. The sanitaries are badly located and improperly equipped. Water from the hillside floods the cellar every spring. An appropriation is recommended to provide improved sanitary arrangements and protect the cellar from water.

The enrollment at Adams School has decreased for several years. In 1901 it was 140; in 1902 it was 131; and at present it is 114.

Next year about twelve pupils living on Lowell Street or vicinity should be transferred from Hancock to Adams School.

The Committee recommend opening classes in cooking (perhaps on Saturday mornings) to all pupils of the proper grades in town. Too little attention has been given in the past to the useful and practical arts. From an economical standpoint the State cannot afford to ignore the matter. Better preparation for the domestic and practical affairs of life should be secured while pupils are under the control of the public schools.

Sloyd has been introduced this year and is elective to pupils in the Eighth and Ninth grades. A first class outfit has been purchased and satisfactory work is being done under the direction of Philip E. Perry, a graduate of the Larsson Sloyd Training School. Lexington is behind most neighboring cities and towns in introducing sloyd into the public schools. Its importance is too well known to need discussion here.

It is with pleasure, somewhat rare, that the Committee acknowledge the gift of \$100.00 each from two friends of our schools toward the purchase of the Sloyd outfit.

Satisfactory progress has been made in drawing during the year, and with ampler accommodations in the new High School better and more advanced work can be expected.

Penmanship, on the whole, is not as good as it should be and better work in this important branch will be looked for in the future.

More attention to reading has been urged during the year, and some improvement is apparent, with much opportunity ahead. There seems to be no uniformity of method throughout our schools in reading, but each teacher follows her own way. Definite methods, systematized throughout the different grades, will be instituted at an early date.

Music is under the supervision of a teacher of great experience and too well known to need comment.

An excessive amount of absence and tardiness prevails for which parents are largely responsible. It must be remedied before our schools can do their best work, for the most serious effects will result from the habits thus acquired. Few traits of character are less desirable than irregularity and lack of responsibility. The great importance of spending each day in the best way is too often overlooked and carelessness gains the ascendancy unawares. Regular attendance and unvarying attention to school work are asked of every pupil, and parents are urged to do their part.

#### HIGH SCHOOL.

The High School begins a new era with the advent of the new building. The enrollment has steadily increased until it is now over one hundred. A goodly number make the school their preparatory for higher institutions.

The course of study needs revision to give those who complete their schooling here a more useful education, and on the other hand to meet better the requirements for college entrance. Botany, astronomy, geology and mechanical drawing, not recently taught, have been introduced this year; also a class for review work in arithmetic, with special reference to commercial and practical application. Many high schools now provide commercial courses, including stenography and typewriting. The time seems hardly right to introduce such work into our High School, but the matter may demand consideration in the near future.

A majority of the teachers are new the present year. Mr. Buck and Miss Goudey resigned and in addition to their successors it became necessary to employ one more teacher.

It seemed desirable to make some change in the sessions of the High School, and after much deliberation it was decided to have

some afternoon classes. The sessions are now 8.30 a. m. to 12 m. and 1.30 to 3 p. m. Pupils having no recitations or laboratory work are excused from attending the second session, *provided* their average in scholarship is above eighty. The reasons for this change of sessions are to allow better hygiene to pupils and teachers and better facilities for school work.

When we maintain two sessions throughout our grammar and primary grades, and the higher institutions of learning have classes during the entire day, the reasons for one session in a High School seem less significant, especially when health of pupils and teachers, as well as scholarship, seems better favored by two sessions.

The new building was appropriately dedicated November 1. Hon. Frank A. Hill, Secretary of the State Board of Education, gave an inspiring address. The University Male Quartette of Boston furnished music. Robert P. Clapp, Esq., Chairman of the Building Committee, presented the keys to Mr. J. F. Hutchinson of the Selectmen, who accepted the building on behalf of the town, and in turn presented the keys to Rev. L. D. Cochrane, Chairman of the School Committee.

The building is well furnished, but needs some interior decorations in pictures, plaster work, statuary, etc., and a reference library. It is a convenient, well arranged building and every room is in use.

Mr. Charles H. Wiswell resigned as member of the School Committee April 30, and Mr. Francis J. Garrison was duly chosen May 12 to fill the vacancy.

After more than five years service as Principal and Superintendent, Mr. Jonathan I. Buck resigned to accept a position in Boston. There were many good candidates for the position among the more than fifty applicants. After careful consideration, Mr. Henry W. Porter, A. B., Harvard, then principal of the high school in Abington, was chosen, and the committee believe that the wisdom of their choice is already apparent.

In the interval between Mr. Buck's resignation and Mr. Porter's succession the school was under the supervision of the sub-master, Clifton A. Towle.

The Robert P. Clapp prizes for excellence in English were awarded this year to Miss Helen S. French for English Composition, and to Hugh P. Greeley for oral English.

The school extends gratitude to Mr. A. W. Stevens for a scholarly address on Shakespeare.

The committee has made a careful estimate of the expenses for the coming year and recommend an appropriation of \$25,000 as the least amount that will support satisfactory schools. This increase over last year is accounted for as follows :

Appropriation last year,	\$21,500
Four teachers more than last year,	2,200
One janitor more than last year,	780
Estimated increase in cost of fuel—	
100 tons more coal for high school,	800
Increase in cost of coal,	300
	<hr/>
	\$25,580

In closing this report, which, though lengthy, is but a fragmentary review of our schools, the committee express their appreciation of the faithful service of the teachers and the kindly co-operation of all.

Respectfully submitted,

LORENZO D. COCHRANE,  
FRED S. PIPER,  
FRANCIS J. GARRISON,

## REPORT OF SUPERINTENDENT OF SCHOOLS.

December 31, 1902.

*To the School Committee of Lexington :*

GENTLEMEN—It gives me pleasure to present to you my report upon the schools of this town. This report is the seventeenth in the series of annual reports of the Superintendent of Schools.

### NEW HIGH SCHOOL BUILDING.

No change which has taken place in our schools of recent years has the importance which we may attach to the completion and occupation of the new High School building. I congratulate the citizens of this town upon their wisdom and generosity in providing such excellent accommodations for the higher education of their children. It goes almost without saying that we should expect to see far more gratifying results from the work of the school under the present attractive conditions than could possibly be hoped for in the old building, where the classes had most serious obstacles to meet.

### CLOSER UNION OF HIGH SCHOOL AND GRAMMAR GRADES.

Perhaps the greatest benefit from this building is reaped by the eighth and ninth grade children who come to it. My only regret is that it is not possible for all the pupils in these two grades in our whole town, to share these advantages. It must inevitably result from the association of these classes with the High School teachers

and pupils, that when the time comes for them to enter the High School the step will seem not so long as heretofore, and more pupils will have the inclination and the courage to take it. Moreover, it is now made possible for us, as our course of study develops, to have some work in these grades conducted by the High School teachers, in some of those subjects which have formerly belonged more strictly to the earlier years in the High School. Thus will there be a closer union between the upper grades of our school system and the lower grades, and we should expect to see more pupils enter upon High School work. The difficulties often met in the first year, arising mainly from the newness of the work and conditions, should largely disappear, and more pupils should be able to pass on to the higher classes in the school. All will agree with me, I am sure, that if these expectations can be realized, we shall have made a great gain at a point in our school system where its need is most sorely felt.

#### TWO SESSIONS AT THE HIGH SCHOOL.

A most important change has been made this year in the conduct of the High School, namely, the adoption of two sessions instead of one. As the work is planned at present, no pupil is regularly required to be present during the afternoon session of every day, but each pupil comes back for some of these sessions. In discussing the merits of this plan, as compared with that of former years, a good case may be made out *pro* and *con*. I would ask all—parents, pupils and teachers—not to form their judgments hastily in this matter. Any change is likely to seem inconvenient at first, and often this inconvenience is allowed to obscure more important considerations.

One feature of our present plan should be distinctly understood. It allows each pupil much less time for study in the High School building than was allowed under the former plan, and therefore, if we are to secure faithful preparation of lessons much studying must be done at home. In order to do this successfully, each pupil should have a regular time for home study, every day, and should be

allowed and encouraged to give his entire attention to his studying during this time. This will require earnest, interested co-operation of parents, pupils, and teachers, which should be secured and promoted in every possible way.

#### COURSE OF STUDY IN THE HIGH SCHOOL.

The High School course of study has been rewritten and considerably modified this year. The general tendency has been to broaden its scope, and to offer more opportunity for elective work, a tendency which has been noticeable, in recent years, throughout our best High Schools. When the plan is more fully developed, our school should offer a thorough and adequate preparation for admission to the best Colleges and Scientific Schools in the country, and should also present attractive courses for those who are not so fortunate as to see ahead of them an opportunity for continuing their formal education beyond the High School.

#### REQUIREMENTS FOR GRADUATION.

The different studies have assigned to them an arbitrary value expressed in *program hours* or *diploma points*. A *program hour* in a study, generally means that one recitation period per week is devoted to that study throughout one year. Two periods of laboratory work are considered to be the equivalent of one period of recitation. Each pupil should pursue each year studies amounting to as many program hours as he can take *to the best advantage*. Work amounting to a definite number of program hours [65 at present] is required for graduation, and any pupil who has completed satisfactorily the required amount of work, receives a diploma. I believe that we should increase the amount of work required for graduation, fixing the minimum at 70 or 72 program hours, instead of at 65 as at present. To do this work will require four years in the High School for most pupils, although *a very few* can do all of it to advantage in three years, and a few others need an extra year, beyond the regular four years' course. Particular encouragement

should be given to those who cannot wisely undertake to accomplish all the required work in four years, and more of them should stay in school with a firm determination to work faithfully until they have earned a diploma.

#### ATHLETICS IN THE HIGH SCHOOL.

I am pleased to mention here the commendable spirit shown by the boys in playing basket-ball in the old building.

I believe that strong athletic interests are desirable in a High School and are deserving of encouragement from all; and I sincerely hope that the Lexington High School may soon be known among its neighbors as a strong but generous opponent in athletic contests.

#### CROWDED CONDITION AT THE HANCOCK SCHOOL.

In the new High School building four rooms are now used for grammar and primary classes, and thus a temporary relief is afforded to the Hancock School. But the location of so many children of lower grades in the new building encroaches upon the accommodations for the High School classes, and the building is already full. In September we should expect an increase in the number of High School pupils, as a small class is to graduate in June, whereas a class of about forty will enter.

Moreover, the relief afforded to the Hancock School is not as great as is desirable. In this building there are three hundred and ninety-six pupils in nine different rooms. Eight of these rooms are excellent for school purposes—the ninth can hardly be called so. It is situated on the third floor, and the light and ventilation are not what they should be. It is therefore most desirable that more suitable accommodations be provided for the children in this room at the earliest possible moment.

With three hundred and ninety-six pupils in the building, and nine teachers, the average number of pupils per teacher is

forty-four. This number is too large if we are to ask the teacher to do as much as should be done for each child. Under the existing conditions I feel that excellent results are accomplished in this school, and I sincerely hope that the day is near at hand when additional accommodations for our primary and grammar schools will reduce the number of pupils per teacher to a maximum of thirty-five.

#### POOR SANITARY CONDITIONS AT THE ADAMS SCHOOL.

In the Adams School the location of the sanitariums should be changed. At present they are so far removed from the class rooms as to be rather inaccessible, and difficult and expensive to heat. I would suggest that they be placed in the front of the basement, if no better location can be found for them, and that a special appropriation be raised for doing this work. When this is done, the cellar floor should be concreted, and some means devised for keeping it dry at all seasons of the year.

#### MANUAL TRAINING.

One room in the new High School building is devoted to Sloyd. This study is offered to members of Grades VIII and IX, and each pupil devotes two hours per week to it. The interest which these pupils show in this work indicates very clearly its value as a part of our school curriculum. I wish that the course might be extended to include the seventh grade. And this might be done if the third floor room in the Hancock School, now used as a class-room, could be devoted to Manual Training. The objections which may be raised to its use as a class-room would not prevent its use in the manner suggested, for the facilities for ventilation would be adequate for the number of pupils that would use the room at one time in a Sloyd class, and the class could be arranged to come at an hour when the light would be ample.

## ABSENCE AND TARDINESS.

In all of our schools absence and tardiness are far too common. This remark does not refer to those rare cases of absence or tardiness which are reasonably unavoidable, and therefore excusable; but it refers to the numerous cases which result from lack of energy or foresight. The danger of cultivating the habit of carelessness with regard to punctuality and regularity in attending to one's daily tasks is so widely recognized that it seems almost needless to allude to it here. And the value of learning the lesson of promptness and earnest application to work is admitted by every one. Why then should not parents see to it that their children acquire habits of punctuality and regularity in their attendance at school, since these habits are of so great value in later life, and are best acquired in youth?

A record of attendance at school, unbroken by absence or tardiness, should be a source of just pride to any boy or girl, and parents should do all in their power to encourage such a record. I would call the attention of all to the "Roll of Honor" appended to this report. May we not hope to see many new names upon this list one year hence?

## CO-OPERATION OF PARENTS AND TEACHERS.

Parents should not confine their efforts in behalf of their children's education to securing punctuality and regularity in attendance at school. In countless other relations it should be made very plain to the child that the closest sympathy exists between his home and his school. This sympathy would produce in him a feeling of confidence in his teacher, and a willingness to obey and follow her.

And parents should interest themselves more earnestly in the schools. They should visit them much more frequently than they do, thus assuring the teachers of their interest. Such visits would result in a better understanding of the work which our schools are trying to accomplish, and would increase their effectiveness in promoting the welfare of the pupils.

## IN CONCLUSION.

To all those earnest and faithful persons who devote their time and best energies to the nerve-exhausting labor of teaching, I would express my gratitude and appreciation. I trust that the nobility of their calling will be to them a constant inspiration to greater achievement.

I would thank all who by their generosity or labors have contributed to the welfare of our schools. Particularly would I acknowledge the debt of gratitude which we owe to those who have increased their effectiveness by suggestion or kindly criticism. I sincerely hope that this interest and support may be continued in the years to come, to the end that our schools may render the greatest possible service to our entire community.

Respectfully submitted,

HENRY W. PORTER.

## REPORT OF TRUANT OFFICER.

DECEMBER 31, 1902.

*To the Superintendent of Schools:*

DEAR SIR—Forty-four pupils have been reported absent from school by their teachers. Each case has been investigated and reported to the respective teachers, and the pupil returned to school as soon as possible. The following reasons have been found for the pupils being absent: seventeen were playing truant; seventeen were kept at home to work or for some other reason by their parents; six on account of sickness, and four were tardy.

Your Commissioners in submitting the above report of the finances of the Water Department wish to state some of the causes of the large excess of expenditures over receipts; first the shortage of

water during the months of August and September, which reduced the receipts from hose and street watering at least \$500; in order to obtain all the water possible necessitated employing four engineers (two for day work and two for night work) during the summer months; in 1901 we paid for engineers and assistants \$1317.47, —this year \$2,158.72—\$841.25 in excess of last year; the consumption of coal has been larger, and as we all know the cost has been much more: Paid for coal in 1901, \$1,911.54, this year \$2,454.09—\$542.55 more than last year. The premium on refunded bonds which has been credited to the department, has more than paid for the extension of mains each year since 1898. This year the amount credited was \$233.90 less than last year—being \$1,023.10—and the extension of mains has cost about \$1,500. The interest account has been \$270 larger this year.

When we enter the Metropolitan system we expect to get a supply of water sufficient for all demands, and we believe there will be a large increase of income from water rates, and that the receipts will pay the water assessment, necessary expenses and interest.

EVERETT S. LOCKE,  
CHARLES W. SWAN,

## REPORT OF THE TRUSTEES OF CARY LIBRARY.

A new step was taken during the year, by way of experiment, in the opening of the reading and reference rooms, Sunday afternoons. Beginning with September this feature has now had four month's trial. The use of this privilege during that time has been, by residents, an average of ten and a fraction; by non-residents, a fraction short of four. Such use, moreover, has been made in hasty visits. Until the stormy month of December there had been an increasing attendance, but that month lowered the average. It is evident that a longer experimental period will be necessary to determine the value of this move.

Since 1900 the number of volumes in the library, including pamphlets, has grown from 19,794 to 21,374. More were added in 1901, and slightly less in 1902 than in 1900. The accessions for the past twelve months, including a special lot and books replaced, were 761. The special lot was purchased from the Mrs. Eleanor S. Beal fund by a sub-committee appointed for that purpose. In this list are 69 volumes, as follows:

Poe, Edgar Allen, works complete, 17 vols.  
Holmes, Oliver Wendell, works complete, 14 vols.  
Trollope, Anthony, works complete, 28 vols.  
Wilson, Woodrow, History of the American People, 5 vols.  
Stedman, E. C., *Ed.* American Anthology, 1 vol.  
Stedman, E. C., *Ed.* Victorian Anthology, 1 vol.  
Stephen, Leslie, Hours in a Library, 3 vols.

Realizing the responsibility placed upon them, the Trustees have sought to recognize and meet a healthy demand for fiction, but at the same time to prevent the fountain from sending out both sweet water and bitter. They have, therefore, built up the library of the strongest and most attractive books in many departments. The following table prepared by the Librarian shows the circulation of books by classes:

	1902.			1901.		
	Volumes from Main Library.	Volumes from Branch	Totals.	Volumes from Main Library.	Volumes from Branch	Totals.

Total Circulation,	28,119	3,695	31,814	28,050	3,667	31,726

The foregoing table shows that the home circulation for 1902 has been 29,296, an increase 437 over that of last year. Seventy per cent. of this was fiction, an increase in that class over last year. It may be of interest that while the main library shows an increased circulation of fiction and a falling off in nearly every other line, the branch library figures indicate a large decrease in fiction and increase in other classes.

This stream of books goes into 628 homes of resident families, 71 more than last year. Eighty temporary residents have taken out cards, and besides these are the yearly visitors who hold their cards continuously.

The demand for more stack room has been met, in a manner, by putting shelves over a large area of the reference room walls. The frequency with which this room has been used is gratifying, and its usefulness has been enhanced by the addition of several valuable sets.

As our Librarian says, it is to be regretted that a more accurate account of books used for reference cannot be kept, but as the work of the library increases this becomes correspondingly difficult unless time is taken which can be more profitably employed elsewhere to increase the usefulness of the library.

The reading room has continued to attract, and it is a pleasure to attest that, though the tables hold a company of readers at almost any period while the rooms are open, it would be hard to find a library where quiet and decorum more generally prevail. There have been on file during the year 1 daily and 2 weekly newspapers, 33 monthly and 3 quarterly periodicals. The branch library has had duplicates of 15 periodicals; 2518 volumes, approximately, have been used in the reading and reference rooms, 226 of these at the branch.

Eight "Art exhibitions" have been held during the year.

The Juvenile department has been improved by the addition of a bulletin board. On this, pictures, illustrative of a subject, lists of books to be read in connection therewith, or of birds to be seen at a particular time are posted. This department now boasts of 1939 volumes of the best juvenile literature, and under the generous oversight of the Librarian, her assistants, and interested friends, is proving a strong help to child culture.

The Trustees would make acknowledgment of the assistance given during the year by the reviewing committee, and by Miss Mollic Doran in the preparation of bird lists, of the gifts made to the library of books, periodicals, and newspapers, and of the un-failing faithfulness and helpfulness with which the Librarian and her assistants have filled their positions.

Respectfully submitted in behalf of the Trustees,

F. A. MACDONALD.
